# Overview

The Fund returned 2.57% in May 2014. As at 31 May 2014 the Fund was worth \$26.14 billion.

	As at 31 May 2014 (unaudited)
Fund size	\$26.14 billion
Value of NZ investments	\$3.7 billion or 16.00% of investments*
Return since inception (30 September 2003)	9.74% p.a.
Last 5 years	16.84% p.a.
Last 3 years	14.14% p.a.
Last 12 months	17.20%
May 2014	2.57%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

\* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

# Performance summary

- The Fund measures its performance in two ways:
  - relative to the NZ 90 day Treasury Bill rate; and
  - relative to a passive [Reference Portfolio](#) benchmark.

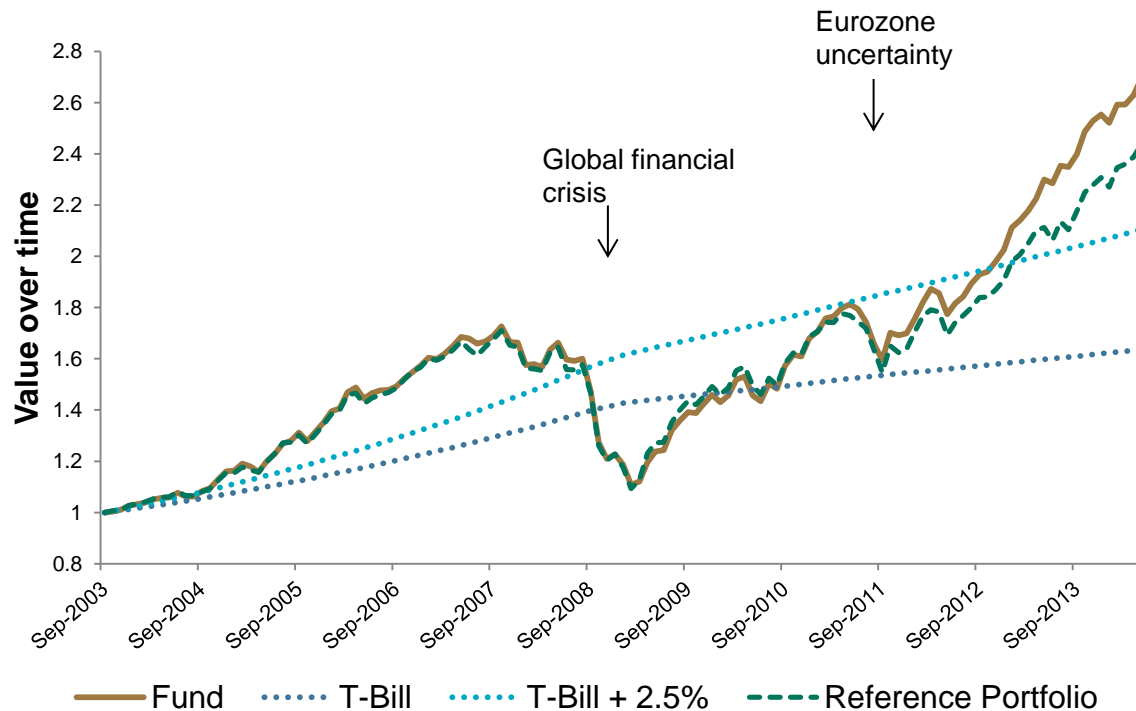

Given the investment risk of the Fund, over the long-term (rolling 20 year periods) we expect to exceed the New Zealand Treasury Bill rate by at least 2.5% p.a.
