# Overview

- The Fund returned 1.58% in March 2017, bringing the 1 year return to 18.70%. Over this period the Fund returned \$1.0 billion in excess of the passive Reference Portfolio. As at 31 March 2017 the Fund was worth \$34.09 billion.

	As at 31 March 2017 (unaudited)
Fund size	\$34.09 billion
Value of NZ investments	\$5.2 billion or 15.5% of investments*
Return since inception (30 September 2003)	10.10% p.a.
Last 10 years	8.59% p.a.
Last 5 years	14.57% p.a.
Last 3 years	12.56% p.a.
Last 12 months	18.70%
March 2017	1.58%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

\* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

# Performance summary

- The Fund measures its performance in two ways:
  - relative to the NZ 90 day Treasury Bill return; and
  - relative to a passive [Reference Portfolio](#) benchmark.

Long-term performance expectation*	0.35%	4.60%	5.33%	5.16%	6.07%	6.76%

\*Given the investment risk of the Fund, over the long-term (rolling 20 year periods) we expect to exceed the New Zealand Treasury Bill return by at least 2.7% p.a. (prior to 1 July 2015, 2.5% p.a.)
